

Sirichada Wattanasiritanawong

AI & Computer Engineering Student

✉ swattan@cmkl.ac.th 📍 Bangkok, Thailand 🌐 sirichada 🔗 sirichada-w-916518260

Education

CMKL University (Carnegie Mellon – KMITL) , AI & Computer Engineering (AiCE)	Bangkok, Thailand Aug 2023 – June 2027
University of Nevada, Las Vegas , College of Engineering International Program	Nevada, USA Aug 2025 – Dec 2025

Experience

CMKL University , Research Assistant Investigating "forward planning ahead" behavior of smaller LLMs through circuit tracing, supervised by Dr. Pakpoom Buabthong. Replicated Anthropic’s rhyming experiment across Gemma (270M, 1B, 4B) using circuit tracing and attribution analysis to identify behavioral differences in implicit reasoning capacity.	Bangkok, Thailand Aug 2025 – present 1 year 2 months
Cbility Technology (CrowdSpec) , COO & Co-Founder - Designed and built a two-stage agentic outreach pipeline (Claude Code skills) for automated lead sourcing, contact verification, and bilingual (EN/TH) email drafting, scaling outreach to 50 emails/week across two market verticals. - Produced client-facing reports and led UI design for the company dashboard and website.	Bangkok, Thailand Jan 2026 – Aug 2026 8 months
University of Nevada, Las Vegas , Student Exchange Research Intern Investigated the impact of database architectures (MySQL, MongoDB, Redis) on real-time data streaming and ML performance for robotic motion prediction, supervised by Dr. Venki Muthukumar. - Integrated relational and non-relational databases with a streaming ML pipeline, enabling real-time ingestion into a Keras LSTM model with TensorFlow backend. - Built end-to-end data flow from LeRobot SO-101 and Atom S5 sensors through Kafka, Spark, and ML inference modules.	Nevada, USA Aug 2025 – Dec 2025 5 months
CMKL University , Undergraduate Researcher Conducted systematic literature review of 700+ generative AI ethics papers to map research landscape and identify emerging themes, supervised by Asst. Prof. Justin Paulsen. Compared topic modeling techniques (BERTopic, LDA, Top2Vec) to create clusters and visualize citation graph.	Bangkok, Thailand July 2024 – Dec 2024 6 months
Advanced Info Services (AIS) , Data Analyst Intern - Built interactive Databricks dashboards using SQL and Python to track campaign metrics and customer engagement. - Automated data extraction from Thai demographic reports using Python (PyPDF2, pdfplumber).	Bangkok, Thailand June 2025 – July 2025 2 months

PathSense (Hackathon Team for AIS Jump Thailand Hackathon 2024), Project Coordinator & UX/UI Designer

- Developed an AI-powered obstacle detection device for visually impaired individuals; awarded first place at AIS Jump Thailand Hackathon 2024.
- Designed accessible user interface adhering to WCAG standards based on user interviews with visually impaired individuals.

Bangkok, Thailand
Aug 2023 – Feb 2026
